

## The Exchange

### BAND STORY

"

The Exchange, led by brothers Thomas and Gordon McDonald, are a Michigan born band now based out of Central Florida. In the summer of 2009, the two brothers co-wrote all songs and produced their cd "Location Unknown". The tracks were recorded at Gordon's studio in Saint Augustine and later mastered at Eclipse Studios in the same town. "We didn't want the cd to have just one sound", says Thomas. "We really tried to create each song differently than the other by using different styles and instrumentation". Gordon McDonald, who also acted as recording engineer, says "we approached this much differently than recording in the past. We had the time to try different things and basically hash it out in the studio". You can also check out their website at [www.theexchangeband.com](http://www.theexchangeband.com)
